CAUTION

- ◆ **Saving Data**
This product is equipped with non-volatile memory. Incorrect use of this product could lead to internal data damage. Please be sure to follow the proper handling instructions noted on this manual.
* PATLITE can not be held responsible for any damage to the internal data downloaded to this product, regardless of the cause of damage. To avoid permanent data loss, please be sure to keep backup files of the data that is loaded to this product.
- ◆ **Regarding SD Card Formatting**
This product is formatted. When reformatting this product, please refer to formatting instructions of the device/software that you are using this product with.
* When formatting, be sure to use either FAT12 or FAT16 file systems.
* Depending on formatting conditions, there is a possibility that the data stored in the SD card cannot be read if the format is not supported by this product. To avoid formatting issues, please make sure that your OS is compatible with FAT12/FAT16 formatting, or that you use the formatting tool that is provided by the SD Association (link below).
<https://www.sdcard.org/downloads/formatter/index.html>
(Note: formatting tool requires administrative rights)
* When formatting, all internal data will be removed. Please be sure to back up any important files in this device before formatting.
- ◆ **Inserting and removing this product**
 - Please be sure that this SD card is facing the correct direction when inserting it into your device.
 - Do not insert this product inside anything other than SD card slots.
 - Do not attempt to remove the SD card while file import/export is in progress.

* This could cause damage to the internal data.
* For more information, please refer to the instructions of the device/software that you are using this product with.
- ◆ **Do not put labels or stickers on this product.**

About the SD Card

This product conforms to SDMI(Secure Digital Music Initiative) Standards.

- ◆ **Regarding Copyright**
This product is equipped with copyright protection. You must use this product with a compatible device/software in order to use the copyright protection function.
* To see if your device is compatible, please refer to the instructions of the device/software that you are using this product with.
- ◆ **Regarding write protection**
The write protection tab prevents the contents in the SD card from being edited.

- * Slide the write protector tab all the way towards each end to lock/unlock.
